society thronged the clubhouse, the terraces and the grounds around the Country Club yesterday afternoon to attend the lawn party, which is an annual affair at the club. The house was decorated with roses and small trees, and the little tables arranged on the terraces were charmingly decorated with old fashioned garden flowers. Gay and picturesque groups were everywhere, following eagerly the horse show of the hunting members, which took place early in the afternoon. This party is one of the most brilliant and delightful functions given by the Country Club, and many out-of-town society folk were present. The club entertained between the hours of 6 and 8 o'clock, but many stopped to dine and dance.

The costumes were especially britliant, and it was said by those who nave known Richmond society for half a century that no garden party since that time has equaled the one held yesterday at the Country Club, Nearly all the women wore elab-

orate toilettes, the exceptions being those who took part in the tennis tournament or who rode in the horse show, and the blazers and riding habits only served to emphasize the rainbow of color on the club lawn. This afternoon the finals in the tennis tournament will be played, and again

.The prince was a close personal friend of King Edward, and on the death of the Duc de La Rochefou-cauld-Doudeauville, was elected to succeed him as president of the French Jockey Club, but declined the honor, preferring to remain vice-president, and nominating in his stead the Duc de Fezensac. He is regarded, how-ever, as the dean of the French racing world, as the principal pillar of the Jockey Club, and as the acknow-ledged head of the French aristocracy. He is a member of the Insti-tute of France, president of the Philanthropic Society of Paris, and of all sorts of charitable enterprises, and onceals his kindness of heart beneath certain affectation of brusquerie, of imperiousness and of dryness, all of which does not however, prevent manners from being characterized by old fashioned courtesy.

Count Jean de Massa, one of the most popular members of the French Jockey Club, has just succeeded to the family dukedom through the death without issue of his extremely fat old rousin, at the age of seventy-six. He ens very stout, very good-natured, and ich, a confirmed bachelor, his two hobbies being flowers and music, and was throughout his long life the ob-ject of no end of matrimonial schemes on the part of widows and girls, eager to become Duchess of Massa. On two seensions even, his engagement was announced, but he managed to wriggle out of the entanglement at the last moment, if "wriggle," indeed, can be applied to one suffering from so much embonpoint. He had a beautiful chateau known as Franconville, set in superb gardens of great extent, in the Department of Seine-et-Oise, near Chantilly, that is to say, within motorchantilly, that is to say, within motor-ing distance of Paris, where his town house, at the corner of the Avenue de Champs Elysees and of the Rue Pierre Charron, was likewise able to boast of a very fine garden. Indeed, his Paris mannion was one of the finest of the gay metropolis, and it was there that Mme, de Souza brought up Queen Hortense's natural son, the late Due de Morny, half-brother of Na poleon III.

The Due de Massa was very fond of dispensing hospitality there, in the form of musical entertainments and operettas, most of which were composed as well as stage managed and arranged by his uncle, the late Marquis de Massa. A familiar figure at these affairs was his half-brother, Baror Roger, although he could hear noth ing of the music, being absolutely deaf, and very nearly dumb. But he was so wonderfully adept in lip reading that he was able to understand almost everything that was said to
